On account of the work from Govt funds is itself a concession shown to the Municipality in view of its poor finances and accepting the present proposal will reduce the Municipal share of the work to less than even one fourth and will create an embarrassing precedent for other Municipalities also to claim similar concessions.

The extra expenditure of Rs 4060/- may perhaps be met in the same proportion of 3/1, a loan of a fourth of the amount being sanctioned to the Municipality, if necessary.

7) In order to avoid delay in taking up the work in question, the Sanitary Engineer may be requested to start the work at once.

8) In regard to the apportionment of the cost, the same may be met in the proportion of 3/1. The Municipal Council can afford to pay 1/3 of Rs 4,060 or Rs 1,353/- out of its funds, towards the excess cost occasioned by the acceptance of the lowest tender received for the work, which is stated to be 25% over the estimate rates and may be directed to credit its quota. Subject, Improvement of the Hiriyur Water Supply distribution system.
=====

I write to state that the Govt in their order No L 15818-20 M1 43-47-17 dated 14-4-1948 have sanctioned an estimate for Rs 63500/ for effecting improvements to the distribution of water supply in Hiriyur town, the cost being met both by the Govt and by the Municipality in the proportion of 3:1. Approval of Govt was accorded to the Govt. share of the estimated amount viz, Rs 47625 being paid out of water supply grant for the year 1947-48 and to the grant of a loan of Rs 15875/. to the Hiriyur Minor Municipal Council repayable in ten annual instalments and carrying interest at 4% per annum. The Govt grant and the loan were drawn and credited to the Sanitary Division of the P W D.

The Sanitary Engineer, Bangalore in his letter No 688 dated 27-11-1948 to the President, Minor Municipal Council, Hiriyur has requested the Municipality to intimate the opinion of the council in the matter of meeting the extra cost of Rs 4060/ that might be incurred by accepting the lowest tenders received for the execution of the work as it happens to be 25% above the estimate rates.

The Municipal Council at its meeting held on 30-11-48 has pleaded inability to bear any extra expenditure that might be incurred in the improvement of the distribution of water supply to the town on account of its poor financial condition.

In view of the revision of scales of pay of the Municipal employees, and the establishment of a Municipal High School, the present financial position of the Municipality does not admit of any further commitments.

I therefore, request you kindly to obtain early sanction of Govt to the extra cost of Rs 4060/. incurred by accepting the lowest tender for the improvement of water supply distribution in the town being borne in full by the Govt itself.
